

Boost Gold ETC (GLD)

Investment Objective

Boost Gold ETC is a fully collateralised, UCITS eligible ETC. The ETC provides a total return comprised of the performance of the NASDAQ Commodity Gold ER index, which reflects an investment in front-month gold futures, plus the interest revenue earned on the collateralised amount.

For example, if the index rises by 1% over a day, then the ETC will rise by 1%, excluding fees. However if the index falls by 1% over a day, then the ETC will fall by 1%, excluding fees.

Key Features

- Liquid. Trades like an equity on exchange, with multiple authorised participants (APs) and market makers (MMs)
- You cannot lose more than the amount invested
- Simple to trade, no need for futures
- Transparent structure with world class service providers and fully collateralised
- Boost is independent and managed by industry experts

Disclaimer

This document has been provided by WisdomTree Europe Ltd which is an appointed representative of Mirabella Advisers LLP which is authorised and regulated by the Financial Conduct Authority. View our Conflicts of Interest Policy and Inventory at www.wisdomtree.eu/cofi. This marketing information is intended for professional clients only. Boost ETPs are suitable for financially sophisticated investors who wish to take a short term view on the underlying indices and can understand the risks of investing in products offering daily leveraged or daily short exposures.

The products discussed in this document are issued by Boost Issuer plc (the "Issuer") under a Prospectus approved by the Central Bank of Ireland as having been drawn up in accordance with the Directive 2003/71/EC. The Prospectus has been passported to various European jurisdictions including the UK, Italy and Germany and is available on the websites of the Central Bank of Ireland and the Issuer. Please read the Prospectus before you invest in any Exchange Traded Products ("ETPs"). Neither the Issuer nor WisdomTree Europe Ltd is acting for you in any way in relation to the investment to which this document relates, or providing investment advice to you. Any decision to invest should be based on the information contained in the Prospectus and after seeking independent investment, tax and legal advice. This document should not be used as the basis for any investment decision.

The value of an investment in ETPs may go down as well as up and past performance is not a reliable indicator of future performance. An investment in ETPs is dependent on the performance of the underlying index, less costs, but it is not expected to match that performance precisely. ETPs involve numerous risks including among others, general market risks relating to the relevant underlying index, credit risks on the provider of index swaps utilised in the ETP, exchange rate risks, interest rate risks, inflationary risks, liquidity risks and legal and regulatory risks.

ETPs offering daily leveraged or daily short exposures ("Leveraged ETPs") are products which feature specific risks that prospective investors should understand before investing in them. Higher volatility of the underlying indices and holding periods longer than a day may have an adverse impact on the performance of Leveraged ETPs. As such, Leveraged ETPs are intended for financially sophisticated investors who wish to take a short term view on the underlying indices and understand such risks. As a consequence, WisdomTree Europe Ltd is not promoting or marketing Boost ETPs to retail clients. Investors should refer to the section entitled "Risk Factors" and "Economic Overview of the ETP Securities" in the Prospectus for further details of these and other risks associated with an investment in Leveraged ETPs and consult their financial advisors as needed. Neither WisdomTree Europe Ltd, nor the Issuer has assessed the suitability of any Leveraged ETPs for investors other than the relevant Authorised Participants.
