Listing in Switzerland

The Shares are listed according to the standard for Collective Investment Schemes of the SIX Swiss Exchange. SIX Exchange Regulation has approved the listing requested by the Company.

Clearing Agency / Certification

The Shares traded in Switzerland on the SIX Swiss Exchange are settled via SIX SIS. Registered Shares shall be issued without share certificates.

Responsibility for the listing prospectus

The Company bears responsibility for the contents of the listing prospectus and declares that to the best of its knowledge and belief the information disclosed in the listing prospectus is correct and that no material factor has been omitted.

Publication

The Company will publish and make available the information required by the Listing Rules of the SIX Swiss Exchange, in particular under Annex 5 to the Admission Board Circular no.1 relating to reporting obligations regarding the maintenance of the listing of investment funds. Furthermore, the Company will disclose important information in accordance with Article 53 of the Listing Rules and the Directive on Ad hoc Publicity of 29 October 2008.

The NAV excluding commission, if any, per Share will be published in its base currency, and if different to the trading currency, in each currency in which it is traded on the SIX Swiss Exchange. Moreover, the Intraday NAV may be obtained during the SIX Swiss Exchange trading hours on Bloomberg.

Market Makers

The listing of the Shares on SIX Swiss Exchange allows investors not only to subscribe for or request repurchase of Shares directly with the Company, but also to purchase or sell them on a liquid and regulated secondary market, i.e. via SIX Swiss Exchange. The procedures relating to the subscription or repurchase of the Shares are provided in the Prospectus.

The SIX Swiss Exchange participants having agreed to act as Market Makers for the trading of Shares on the SIX Swiss Exchange will be disclosed on the Website of SIX Swiss Exchange.

The role of the Market Makers is to maintain a market for the Shares quoted on SIX Swiss Exchange for which they have been appointed, and in this context, to publish purchase and sale prices for the relevant Funds on the SIX Swiss Exchange trading system.

In accordance with the practice of the Swiss Financial Market Supervisory Authority FINMA, each Market Maker is required to ensure that the difference between (i) the Intraday NAV per Share (calculated by reference to the NAV per Share and subsequently updated to reflect changes in the prices of the constituent stocks due to trading activity also referred to as the indicative NAV) and (ii) the price at which investors may purchase and sell the Shares on SIX Swiss Exchange is reduced to a reasonable level.

Under the terms of the Market Making Agreement entered into between SIX Swiss Exchange and each Market Maker, the relevant Market Maker is required, subject to specific rules and under normal market conditions, to make a market on SIX Swiss Exchange for Shares and, within this context, to quote on the SIX Swiss Exchange trading system purchase and sale prices for these Shares.

For the following funds on underlying stocks, namely

WisdomTree US Equity Income UCITS ETF,
WisdomTree US SmallCap Dividend UCITS ETF,
WisdomTree Europe Equity Income UCITS ETF,
WisdomTree Europe SmallCap Dividend UCITS ETF,
WisdomTree Emerging Markets Equity Income UCITS ETF,
WisdomTree Emerging Markets SmallCap Dividend UCITS ETF,
WisdomTree Japan Equity UCITS ETF
WisdomTree Europe Equity UCITS ETF
WisdomTree Emerging Asia Equity Income UCITS ETF
WisdomTree Germany Equity UCITS ETF

the spread may not exceed, on one hand, 2% (+/- 1% on either side of the indicative NAV) in cases where at least 50% of the constituent stocks can be traded on the primary market during the official SIX Swiss Exchange trading hours, and on the other hand, a spread of not more than 5% in cases where more than 50% of the constituent stocks cannot be traded on the primary market during the official SIX Swiss Exchange trading hours.

This condition only applies in normal market conditions.

As a result, the maximum difference during the course of a trading day between (i) the Intraday NAV per Share and (ii) the price at which the Shares can be bought or sold on SIX Swiss Exchange should not, under normal market conditions, exceed the spreads agreed upon with the SIX Swiss Exchange.

The aforementioned measures aim to reduce the risk of difference.
