WisdomTree: An established ETP provider to access cryptocurrencies

WisdomTree is an established and leading exchange-traded product (ETP) issuer that provides secure and efficient access to cryptocurrencies in a familiar wrapper. With over \$150bn¹ of assets under management globally across ETFs and ETPs covering all asset classes, investors can benefit from our global reach and resources. As a diversified, robust, and scalable business, we can offer cryptocurrency ETPs with highly competitive fees without compromising security or risk management.

In 2019, WisdomTree became the first established ETP provider to launch a physically backed crypto ETP, WisdomTree Physical Bitcoin. At 0.15%², our Bitcoin ETP has one of the lowest fee levels for institutional-grade physical bitcoin ETPs in Europe that are 100% backed by Bitcoin.

The WisdomTree crypto ETP range has 6+ years of proven and successful track record and leverages 20 years of expertise in providing and managing physically backed ETPs for institutional investors. The result is a best-in-class, institutional-grade and low cost range of twelve ETPs that provide thoughtful access to individual cryptocurrencies and diversified baskets.

Our institutional-grade crypto ETPs are 100% physically backed and use a multi-custody model that leverages regulated custodians. This ensures assets are professionally secured in 'cold storage' and held in segregated wallets. Transparency is paramount to us and our clients, so we clearly disclose all the key characteristics of our crypto ETPs on our dedicated product web pages and material, including staking rewards where applicable.

2 A portion of the management fee (MER) has been waived, effective from and including 26 March 2025 until 31 December 2026. During this period, the MER will be 0.15% per annum. From 1 January 2027, the MER will revert to 0.25% per annum.

The product discussed in this document is an unregulated ETP, approved to trade

on exchanges which may include the London Stock Exchange, SIX Swiss Exchange, Euronext Paris, Euronext Amsterdam, Nasdaq Stockholm and the Deutsche Börse Xetra. Cryptocurrencies are a high-risk investment and may not be suitable for all types of investors. Prospective investors should be aware that the price of the underlying asset(s) by which the securities are secured can demonstrate higher volatility than other asset classes and consequently the value of the securities may be extremely volatile. You must ensure that the nature, complexity and risks associated with cryptocurrencies are suitable for your objectives in light of your circumstances and financial position.

Don't invest unless you're prepared to lose all the money you invest. This is a high-risk investment and you should not expect to be protected if something goes wrong.
