WisdomTree Quality Dividend Growth Family

The WisdomTree Quality Dividend Growth ETFs (exchange traded funds) seek long term capital appreciation by investing primarily in high quality, high profitability, dividend-growing companies that meet WisdomTree's ESG (environmental, social and governance) criteria. By focusing on quality stocks, the ETFs aim to provide both upside participation in bull markets, and defensive characteristics during drawdowns along with exposure to leading dividend growers.

WisdomTree Investment Philosophy

At WisdomTree, we believe that quality stocks are the cornerstone of an equity portfolio. They are key to building resilient portfolios that can help investors build wealth over the long term and navigate the inevitable storms along the way.

All-weather investment

The ETFs focus on profitability and medium-term growth to select stocks, creating a portfolio with an asymmetric risk profile: a high upside capture ratio combined with a lower downside capture ratio

Robust, research-driven, systematic process

Investors benefit from WisdomTree's transparent and systematic investment process rooted in academically driven research.

High Active Share, Style consistent Portfolio

The ETFs deliver consistent high exposure to the profitability factor with high active share (circa 70%).

Why invest in Quality stocks? Because they have the potential to both grow over the long term and to weather any temporary storm

1. A recognised Investment philosophy

Like Warren Buffet, Benjamin Graham or Robert Novy-Marx, many practitioners have used quality attributes to select stocks in their portfolios.

2. Long Term historical outperformance

Academics have demonstrated that quality stocks have outperformed the market over the long term while exhibiting lower volatility. In 2014, Fama-French extended their three factors model to add quality metrics like operational profitability.

3. An all-weather, balanced risk profile

Quality stocks are attractive on two distinct levels. First, since quality companies generate high revenues, they can grow and compound wealth in the future. Second, thanks to their solid business models and financial strength, they can withstand unexpected events such as an economic downturn or a pandemic.

Quality investments leverage the fact that quality stocks can grow over the long term and weather any temporary storm. This makes quality an ideal candidate for a strategic, long term, core investment in equities but also for a prolonged period of uncertainty where a bear market rally or a deep drawdown are as likely.

WisdomTree ESG framework

WisdomTree understands the importance of ESG considerations within investment strategies and strongly believe that ESG principles need to be addressed holistically and not simply applied to a subset of impact investments.

We have aligned our proprietary equity indices with ESG factors using exclusion criteria, applying a combination of principle-based exclusions and activity-based exclusions based on the assessment from Sustainalytics, a leading independent ESG and corporate governance research, ratings and analytics firm;

For information on our approach to ESG, visit our [Responsible Investing page](#).

Investment process

With the Quality Dividend Growth strategies, investors benefit from WisdomTree's style-consistent, transparent and systematic investment process, which is rooted in academically driven research.

I Screening for Inclusion

- + **Liquidity and Dividend Screen** – Only dividend-paying companies with a dividend coverage ratio of at least one and minimum market capitalisation as well as average daily volume to ensure liquidity are eligible.
- + **Composite Risk Score** - uses Quality and Momentum scores to rank companies and separate the strongest from the riskiest companies. The riskiest companies, as well as potential value traps, are screened out.
- + **ESG Considerations** - Index members are also screened for the ESG (Environmental, Social, and Corporate Governance) criteria defined within the WisdomTree ESG framework.

II Stock Selection

Each strategy comprises a diversified basket of companies with the best combined score using three fundamental metrics¹ that we believe best represent high-quality companies:

- + Return on assets (ROA)²
- + Return on equity (ROE)^{2,3}
- + Analysts' earnings growth expectations⁴

III Weighting

- + Annual Rebalancing
- + 'dividend stream' weighting - the weight for each stock is derived from the amount of dividend paid by the company over the previous 12 months in US dollar terms (Dividend per Share x # Shares Outstanding).
- + This weighting methodology allows to take into account the size of the company and to control for the valuation of the portfolio by ensuring that the strategy is not focusing on overpriced stocks.

1 All data is sourced from Factset.

2 Historical three-year average is used.

3 In the WisdomTree US Quality Dividend Growth strategy, and the WisdomTree UK Quality Dividend Growth strategy, companies with negative equity and therefore undefined return on equity will be given a median score as long as they've shown dividend growth over the past five years.

4 In the WisdomTree UK Quality Dividend Growth strategy, this is combined with EBITDA and Sales growth. In the WisdomTree US Quality Dividend Growth strategy, this is combined with trailing 5-year earnings growth and sales growth.

- + **Diversification:** Individual Stock caps as well as country and sector caps to ensure diversification.
 - In the WisdomTree Global Developed ex-US Quality Dividend Growth Index and WisdomTree Eurozone Quality Dividend Growth Index, country weights and sector weights are capped and floored to ensure that the maximum deviation from the starting universe⁵ is limited to 5%, 10% respectively.

Important Information

Marketing communications issued in the European Economic Area (“EEA”): This document has been issued and approved by WisdomTree Ireland Limited, which is authorised and regulated by the Central Bank of Ireland.

Marketing communications issued in jurisdictions outside of the EEA: This document has been issued and approved by WisdomTree UK Limited, which is authorised and regulated by the United Kingdom Financial Conduct Authority.

WisdomTree Ireland Limited and WisdomTree UK Limited are each referred to as “WisdomTree” (as applicable). Our Conflicts of Interest Policy and Inventory are available on request.

This marketing communication has been prepared for professional investors, but the WisdomTree products set out in this document may be available in some jurisdictions to any investors, subject to applicable laws and regulations. As the product may not be authorised or its offering may be restricted in your jurisdiction, it is the responsibility of every person or entity to satisfy themselves as to the full observance of the laws and regulations of the relevant jurisdiction. Prior to any application investors are advised to take all necessary legal, regulatory, tax and investment advice on the suitability and consequences of an investment in the products. Past performance is not a reliable indicator of future performance. Any historical performance included in this document may be based on back testing. Back testing is the process of evaluating an investment strategy by applying it to historical data to simulate what the performance of such strategy would have been. Back tested performance is purely hypothetical and is provided in this document solely for informational purposes. Back tested data does not represent actual performance and should not be interpreted as an indication of actual or future performance. The value of any investment may be affected by exchange rate movements. Any decision to invest should be based on the information contained in the appropriate prospectus and after seeking independent investment, tax and legal advice. These products may not be available in your market or suitable for you. The content of this document does not constitute investment advice nor an offer for sale nor a solicitation of an offer to buy any product or make any investment.

An investment in exchange-traded products (“ETPs”) is dependent on the performance of the underlying index, less costs, but it is not expected to match that performance precisely. ETPs involve numerous risks including among others, general market risks relating to the relevant underlying index, credit risks on the provider of index swaps utilised in the ETP, exchange rate risks, interest rate risks, inflationary risks, liquidity risks and legal and regulatory risks.

The information contained in this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of shares in the United States or any province or territory thereof, where none of the issuers or their products are authorised or registered for distribution and where no prospectus of any of the issuers has

been filed with any securities commission or regulatory authority. No document or information in this document should be taken, transmitted or distributed (directly or indirectly) into the United States. None of the issuers, nor any securities issued by them, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes.

This document may contain independent market commentary prepared by WisdomTree based on publicly available information. Although WisdomTree endeavours to ensure the accuracy of the content in this document, WisdomTree does not warrant or guarantee its accuracy or correctness. Any third party data providers used to source the information in this document make no warranties or representation of any kind relating to such data. Where WisdomTree has expressed its own opinions related to product or market activity, these views may change. Neither WisdomTree, nor any affiliate, nor any of their respective officers, directors, partners, or employees accepts any liability whatsoever for any direct or consequential loss arising from any use of this document or its contents.

This document may contain forward looking statements including statements regarding our belief or current expectations with regards to the performance of certain assets classes and/or sectors. Forward looking statements are subject to certain risks, uncertainties and assumptions. There can be no assurance that such statements will be accurate and actual results could differ materially from those anticipated in such statements. WisdomTree strongly recommends that you do not place undue reliance on these forward-looking statements.

WisdomTree Issuer ICAV

The products discussed in this document are issued by WisdomTree Issuer ICAV (“WT Issuer”). WT Issuer is an umbrella investment company with variable capital having segregated liability between its funds organised under the laws of Ireland as an Irish Collective Asset-management Vehicle and authorised by the Central Bank of Ireland (“CBI”). WT Issuer is organised as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) under the laws of Ireland and shall issue a separate class of shares (“Shares”) representing each fund.

The Fund is described in a Key Information Document (KID) or Key Investor Information Document (KIID) for UK investors, and the prospectus of WT Issuer (“WT Prospectus”). A copy of the WT Prospectus and the KID / KIID is available, for EEA/UK only, in English at www.wisdomtree.eu. Where required under national rules, the KID will also be available in the local language of the relevant EEA Member State. Investors should read the WT Prospectus before investing and should refer to the section of the WT Prospectus entitled ‘Risk Factors’ for further details of risks associated with an investment in the Shares.

The summary of investor rights associated with an investment in the fund is available in English on WisdomTree Europe’s website. WisdomTree Management Limited may decide to terminate the arrangements made for the marketing of its collective investment undertakings. In such circumstances, shareholders in the affected EEA Member State will be notified of this decision and will be provided with the opportunity to redeem their shareholding in the fund free of any charges

or deductions for at least 30 working days from the date of such notification.

For Investors in Switzerland:

This document constitutes an advertisement of the financial product(s) mentioned herein.

The prospectus (in English only) and the key investor information documents (KID) (in German, French and Italian) are available from WisdomTree's website: <https://www.wisdomtree.eu/en-ch/resource-library/prospectus-and-regulatory-reports>

For WisdomTree UCITS products only: the representative and paying agent of the ETPs in Switzerland is Société Générale Paris, Zurich Branch, Talacker 50, PO Box 5070, 8021 Zurich, Switzerland. The prospectus, the key investor information documents (KIID), the articles of association and the annual and semi-annual reports of the sub-funds are available free of charge from the representative and paying agent. As regards distribution in Switzerland, the place of jurisdiction and performance is at the registered seat of the representative and paying agent. Some of the sub-funds referred to in this document may not have been registered with the Swiss Financial Market Supervisory Authority ("FINMA"). In Switzerland, such sub-funds that have not been registered with FINMA may only be available to Qualified Investors.

For Investors in France:

The information in this document is intended exclusively for professional investors (as defined under the MiFID) investing for their own account and this material may not in any way be distributed to the public. The distribution of the Prospectus and the offering, sale and delivery of Shares in other jurisdictions may be restricted by law. WT Issuer is a UCITS governed by Irish legislation, and approved by the Financial Regulatory as UCITS compliant with European regulations although may not have to comply with the same rules as those applicable to a similar product approved in France. The Fund has been registered for marketing in France by the Financial Markets Authority (Autorité des Marchés Financiers) and may be distributed to investors in France. Copies of all documents (i.e. the Prospectus, the Key Investor Information Document, any supplements or addenda thereto, the latest annual reports and the memorandum of incorporation and articles of association) are available in France, free of charge at the French centralizing agent, Societe Generale at 29, Boulevard Haussmann, 75009, Paris, France. Any subscription for Shares of the Fund will be made on the basis of the terms of the prospectus and any supplements or addenda thereto.

For Investors in Malta: This document does not constitute or form part of any offer or invitation to the public to subscribe for or purchase shares in the Fund and shall not be construed as such and no person other than the person to whom this document has been addressed or delivered shall be eligible to subscribe for or purchase shares in the Fund. Shares in the Fund will not in any event be marketed to the public in Malta without the prior authorisation of the Maltese Financial Services Authority.
