## **DIRECTORS' REPORT**

The directors of Swiss Commodity Securities Limited ("SCSL" or the "Company") submit herewith the unaudited interim financial report and interim financial statements of the Company for the period ended 30 June 2015.

#### **Directors**

The names and particulars of the directors of the Company during and since the end of the financial period are:

Mr Graham J Tuckwell - Chairman Mr Graeme D Ross Mr Joseph L Roxburgh Mr Mark K Weeks

## **Directors' Interests**

The following table sets out the only director's interest in Ordinary Shares as at the date of this report:

<u>Director</u>	Ordinary Shares of Nil Par Value
Graham J Tuckwell	2
(as controlling party of ETF Securities Limited ("ETFSL"))	

# **Principal Activities**

During the period there were no significant changes in the nature of the Company's activities.

# **Review of Operations**

During the period, the Company had the following number of classes, in aggregate, of Swiss Franc Currency-Hedged Commodity Securities in issue and admitted to trading on the following exchanges:

Security	Swiss Stock Exchange
Classic Swiss Franc Currency-Hedged Commodity Securities	25
Longer Dated Swiss Franc Currency-Hedged Commodity Securities	3
Total Swiss Franc Currency-Hedged Commodity Securities	28

As at 30 June 2015, assets under management amounted to USD 31.0 million (31 December 2014: USD 17.7 million). The Company recognises its financial assets (Commodity Contracts) and financial liabilities (Swiss Franc Currency-Hedged Commodity Securities) at fair value in the Statement of Financial Position.

During the period, the Company generated income from creation and redemption fees, management fees and licence allowance as follows:

	30 June 2015	30 June 2014
	USD	USD
Creation and Redemption Fees	15,288	6,625
Management Fees and Licence Allowance	62,375	60,948
Total Fee Income	77,663	67,573

Under the terms of the service agreement with ETFS Management Company (Jersey) Limited ("ManJer"), the Company accrued expenses equal to the management fees and creation and redemption fees, which, after taking into account other operating income and expenses, resulted in an operating result for the period of USD Nil (30 June 2014: USD Nil).

## **DIRECTORS' REPORT (CONTINUED)**

# **Review of Operations (continued)**

The gain or loss on Swiss Franc Currency-Hedged Commodity Securities and Commodity Contracts is recognised in the Statement of Profit or Loss and Other Comprehensive Income in line with the Company's accounting policy.

The Company has entered into contractual obligations to trade Commodity Contracts at set prices on each trading day. These prices are based on an agreed formula published in the prospectus, and are equal to the published net asset value ("NAV") of each class of Swiss Franc Currency-Hedged Commodity Securities.

IFRS 13 requires the Company to utilise the available market price for the Swiss Franc Currency-Hedged Commodity Securities as quoted on the open market. As a result of the difference in valuation methodology between Commodity Contracts and Swiss Franc Currency-Hedged Commodity Securities there is a mis-match between accounting values, and the results of the Company reflect a gain or loss on the difference between the agreed formula price of the Commodity Contracts and the market price of Swiss Franc Currency-Hedged Commodity Securities. This gain or loss would be reversed on a subsequent redemption of the Swiss Franc Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts.

# **Future Developments**

The directors are not aware of any developments that might have a significant effect on the operations of the Company in subsequent financial periods not already disclosed in this report or the attached interim financial statements.

#### **Dividends**

There were no dividends declared or paid in the current period. It is the Company's policy that dividends will only be declared when the directors are of the opinion that there are sufficient distributable reserves.

## **Employees**

The Company does not have any employees. It is the Company's policy to use the services of specialist subcontractors or consultants as far as possible.

#### **Directors' Remuneration**

No director has a service contract with the Company and details of the directors' remuneration which has been paid by ManJer on behalf of the Company for the period is disclosed below.

#### STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the interim financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare interim financial statements for each financial period. Under that law the directors have elected to prepare the interim financial statements in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board. The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

International Accounting Standard 1 requires that financial statements present fairly for each financial period the Company's financial position, financial performance and cash flows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's 'Framework for the preparation and presentation of financial statements'. In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. However, the directors are also required to:

- · Properly select and apply accounting policies;
- Present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- Make an assessment of the Company's ability to continue as a going concern.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## NOTES TO THE FINANCIAL STATEMENTS

# 1. Accounting Policies

The main accounting policies of the Company are described below.

## **Basis of Preparation**

The interim financial statements for the six months ended 30 June 2015 have been prepared in accordance with IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB. The interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The accounting policies adopted are consistent with those of the annual financial statements for the period ended 31 December 2013. The interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as at 31 December 2014.

The presentation of interim financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The only key accounting judgement required to prepare these financial statements is in respect of the valuation of Commodity Contracts and Swiss Franc Currency-Hedged Commodity Securities held at fair value through the profit or loss as disclosed in notes 5 and 6. Actual results could vary from these estimates.

This half yearly report has not been audited or reviewed by the Company's auditors.

# **Accounting Standards**

- (a) Standards, amendments and interpretations effective on 1 January 2015 but not relevant to the Company:
  - Amendments to IFRS 10 Consolidated Financial Statements Investment Entities

  - IFRS 15 Revenue from Contracts with Customers (effective for annual periods beginning on or after 1 January 2017)

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

# 1. Accounting Policies (continued)

# **Accounting Standards (continued)**

- (b) Standards, amendments and interpretations that are in issue but not yet effective (continued):
  - Amendments to IAS 16 Property, Plant and Equipment clarification of acceptable methods of depreciation and amortisation and bringing bearer plants within scope (effective for annual periods beginning on or after 1 January 2016)
  - IAS 19 Employee Benefits Defined Benefit Plans: Employee Contributions (effective for annual periods beginning on or after 1 July 2014)
  - Amendments to IAS 38 Intangible Assets clarification of acceptable methods of depreciation and amortisation (effective for annual periods beginning on or after 1 January 2016)
  - Amendments to IAS 41 Agriculture bringing bearer plants into the scope of IAS 16 (effective for annual periods beginning on or after 1 January 2016)
  - Annual Improvements to IFRS (effective for annual periods beginning on or after 1 July 2014)

The directors anticipate that the adoption of these standards in future periods will have no material financial impact; however the amendments may change the presentation of the financial statements. The directors have considered other new and revised standards and concluded that they would not have a material impact on the future financial periods when they become available.

# Swiss Franc Currency-Hedged Commodity Securities and Commodity Contracts

# i) Issuance and Redemption

The Company has entered into Facility Agreements with UBS and Merrill Lynch to permit the Company to purchase and redeem Commodity Contracts at prices equivalent to Swiss Franc Currency-Hedged Commodity Securities issued or redeemed on the same day. Each time a Swiss Franc Currency-Hedged Commodity Security is issued or redeemed by the Company a corresponding number and value of Commodity Contracts are purchased or redeemed from UBS or Merrill Lynch.

Financial assets and liabilities are recognised and de-recognised on the trade date.

# ii) Pricing

The Commodity Contracts are priced by reference to the product of currency-hedged commodity indices calculated and published by Bloomberg L.P. and Bloomberg Finance L.P. (together "Bloomberg") and a multiplier calculated by the Company and agreed with UBS and Merrill Lynch. The multiplier takes into account the daily accrual of the Management Fee and Licence Allowance as well as the incremental capital enhancement component of the Swiss Franc Currency-Hedged Commodity Security, and is the same across all Securities within the same class (i.e. all Classic Swiss Franc Currency-Hedged Commodity Securities use the same multiplier).

IFRS 13 requires the Company to utilise the available market price of the Swiss Franc Currency-Hedged Commodity Securities as those Swiss Franc Currency-Hedged Commodity Securities are quoted on the open market. The Swiss Franc Currency-Hedged Commodity Securities are priced using the mid market price on the statement of financial position date taken just before the final close of the market.

Consequently a difference arises between the value of Commodity Contracts (based on the agreed formula price) and Swiss Franc Currency-Hedged Commodity Securities (at market value) presented in the Statement of Financial Position. This difference is reversed on a subsequent redemption of the Swiss Franc Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts.

## iii) Designation at fair value through Profit or Loss

Each Swiss Franc Currency-Hedged Commodity Security and Commodity Contract comprises a financial instrument whose redemption price is linked to the performance of the relevant Commodity index.

# iii) Designation at fair value through Profit or Loss (continued)

These instruments are designated at fair value through the profit or loss upon initial recognition. This is in order to enable gains or losses on both the Swiss Franc Currency-Hedged Commodity Securities and Commodity Contracts to be recorded in the Statement of Profit or Loss and Other Comprehensive Income.

Through the mis-matched accounting values, the results of the Company reflect a gain or loss which represents the movement in the cumulative difference between the agreed formula price of the Commodity Contracts and the market price of Swiss Franc Currency-Hedged Commodity Securities. This gain or loss is transferred to a Revaluation Reserve which is non-distributable. The results of the Company are adjusted through the presentation of a non-statutory movement entitled 'Adjustment from Market Value to Contractual Formula Price (as set out in the prospectus) of Swiss Franc Currency-Hedged Commodity Securities'.

# **Going Concern**

The nature of the Company's business dictates that the outstanding Swiss Franc Currency-Hedged Commodity Securities may be redeemed at any time by the holder and in certain circumstances may be redeemed by the Company. As the redemption of Swiss Franc Currency-Hedged Commodity Securities will coincide with the redemption of an equal amount of Commodity Contracts, no liquidity risk is considered to arise. All other liabilities of the Company are met by ManJer; therefore the directors consider the Company to be a going concern for the foreseeable future and have prepared the interim financial statements on this basis.

# **Segmental Reporting**

A segment is a distinguishable component of the Company that is engaged either in providing products or services (business segment), or in providing products and services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company has not provided segmental information as the Company has only one business or product group, classic and longer dated securities, and one geographical segment which is Switzerland and Europe. All information relevant to the understanding of the Company's activities is included in these financial statements.

- The amount payable as a result of unsettled redemptions of Commodity Contracts is USD 87,652 (2014: USD 92,115).

# 6. Swiss Franc Currency-Hedged Commodity Securities

Whilst the Swiss Franc Currency-Hedged Commodity Securities are quoted on the open market, the Company's liability relates to its contractual obligations to trade at set prices on each trading day. These prices are based on an agreed formula, and are equal to the published net asset values ("NAV") of each class of Swiss Franc Currency-Hedged Commodity Security. Therefore, the actual contractual issue and redemption of Swiss Franc Currency-Hedged Commodity Securities occur at a price that corresponds to gains or losses on the Commodity Contracts. As a result the Company has no net exposure to gains or losses on the Swiss Franc Currency-Hedged Commodity Securities and Commodity Contracts.

The Company measures the Swiss Franc Currency-Hedged Commodity Securities at their transferable value in accordance with IFRS 13 rather than their settlement value as described in the prospectus. The transferable value is deemed to be the prices quoted on stock exchanges or other markets where the Swiss Franc Currency-Hedged Commodity Securities are listed or traded. However Commodity Contracts are valued based on the agreed formula (which is equal to the published NAVs of each class of Swiss Franc Currency-Hedged Commodity Security).
