### **Director's Report**

ICBCCS WisdomTree S&P China 500 UCITS ETF ("the Fund") is an index-tracking exchange traded fund whose units are listed and traded on the London Stock Exchange, Xetra and Borsa Italiana. The Fund seeks to track the performance of the S&P China 500 Index (the "Index") before fees and expenses by investing in securities representing the constituents of the Index. The Index comprises 500 of the largest, most liquid Chinese companies while approximating the sector composition of the broader Chinese equity market. All Chinese share classes including A-shares and offshore listings are eligible for inclusion. As at 31 December 2021, the Net Asset Value ("NAV") per unit of the Fund was USD 15.9156 and 4,100,000 units were outstanding. The total size of the Fund was approximately USD 65.25 million. A summary of the performance of Index and the Fund is given below.

Total Return in USD	From 1 July 2021 to 31 December 2021	Since Inception
ICBCCS WisdomTree S&P China 500 UCITS ETF	-11.98%	67.33%
S&P China 500 USD Net Total Return Index	-11.85%	73.61%
Difference	-0.13%	-6.28%

The difference in performance between the Index and the Fund was mainly attributed to fees and expenses, security selection and cash drag. The historical tracking error for the NAV of the Fund against the Index was at 43 basis points on an annualized basis since its inception on 26 July 2016, the annualized tracking error for the period from 1 July 2021 to 31 December 2021 was 25 basis points, which is within our expectation and tolerance.

Luxembourg, 31 December 2021

The figures stated in this report are historical and not necessary indicative of future performance.

#### Note 8 Significant Event

The outbreak of the Coronavirus (COVID-19), declared by the World Health Organisation as a global pandemic on the 11 March 2020, continues to impact many aspects of daily life and the global economy. Travel, movement and operational restrictions have been implemented by many countries. In some cases, lockdowns have been applied – in varying degrees – to reflect further waves of COVID-19. While these may imply a new stage of the crisis, they are not unprecedented in the same way as the initial impact. The pandemic and the measures taken to tackle COVID-19, including the development and roll out of vaccines globally, continue to affect economies and public equity markets globally. The success of vaccine programs are expected to have a major impact on the speed and nature of economic recovery but the timing and form of the recovery remains uncertain, particularly with the emergence of new strains of COVID-19. The Directors are continuing to utilise business continuity and resilience processes with the objective of mitigating the impact of COVID-19.

No other significant events occurred during the period.

### Note 9 Subsequent Event

Mr Zhuoyi Fan resigned effective 15 Feb 2022.

No other significant events occurred after the period end.
