Directors' Report

The directors of ETFS Hedged Commodity Securities Limited ("HCSL" or the "Company") submit herewith the annual report and financial statements of the Company for the year ended 31 December 2016.

Directors

The names and particulars of the directors of the Company during and since the end of the financial year are:

Graham J Tuckwell - Chairman
 Christopher J M Foulds
 Graeme D Ross (Resigned 7 December 2016)
 Steven G Ross (Appointed 7 December 2016)
 Joseph L Roxburgh

Directors' Interests

The following table sets out the directors' interests in Ordinary Shares as at the date of this report:

<i>Director</i>	<u>Ordinary Shares of Nil Par Value</u>
Graham J Tuckwell (as majority shareholder of ETF Securities Limited ("ETFSL"))	2

Principal Activities

The Company's principal activity is the issue and listing of currency-hedged commodity securities ("Currency-Hedged Commodity Securities"). Currency-Hedged Commodity Securities are financial instruments designed to track the price of individual commodity futures contracts or baskets of commodity futures contracts for which the effects of foreign exchange risks are hedged, and give investors an exposure similar to that which could be achieved by managing a long fully cash collateralised unleveraged position in futures contracts of specific maturities, less applicable fees. However, unlike managing a futures position, Currency-Hedged Commodity Securities involve no need to roll from one futures contract to another, no margin calls, and no other brokerage or other costs in holding or rolling futures contracts (although Security Holders incur other costs in holding Currency-Hedged Commodity Securities). No trading or management of futures contracts is required by the Company.

Currency-Hedged Commodity Securities are backed by commodity contracts ("Commodity Contracts") with terms corresponding to the terms of Currency-Hedged Commodity Securities. The Issuer gains exposure to the movements in the Bloomberg Commodity Indices by holding corresponding Commodity Contracts. Each time Currency-Hedged Commodity Securities are issued or redeemed, matching Commodity Contracts between the Company and a Commodity Contract Counterparty are created or cancelled by the Company. The Company has entered into Facility Agreements with UBS AG, London Branch ("UBS") and Merrill Lynch International ("Merrill Lynch") (together the "Commodity Contract Counterparties"), enabling the Company to create and cancel Commodity Contracts on an ongoing basis.

The price of each class of Currency-Hedged Commodity Security is calculated on a daily basis and reflects movements in the Bloomberg Commodity Index relevant to that class since the previous day, adjusted by any applicable fees. Therefore, the return for a particular class of Currency-Hedged Commodity Security will primarily be based on the performance of the relevant Bloomberg Commodity Index.

Each currency-hedged commodity index is calculated by reference to the corresponding un-hedged commodity index and provides a hedge against movements in the exchange rate between the US Dollar and the currency of denomination of that commodity index, which is rebalanced on a daily basis. As the Company issues securities which provide exposure to the daily movements in one of the currency-hedged Bloomberg Commodity Indices and the Company gains exposure to the movements in that Bloomberg Commodity Index by holding corresponding Commodity Contracts, the Company is not required to undertake any currency hedging activities.

Directors' Report (Continued)

Principal Activities (continued)

The Company earns a management fee and a licence allowance based upon the number of Currency-Hedged Commodity Securities in issue. These fees are expressed as an annual percentage, calculated on a daily basis and reflected in the Net Asset Value ("NAV") of the Currency-Hedged Commodity Securities on a daily basis, and paid monthly in arrears.

The Company has entered into a service agreement with ETFS Management Company (Jersey) Limited ("ManJer" or the "Manager"), whereby ManJer is responsible for supplying or procuring the supply of all management and administration services required by the Company, (including marketing) as well as the payment of costs relating to the listing and issue of Currency-Hedged Commodity Securities. In return for these services, the Company pays ManJer an amount equal to the aggregate of the management fee, licence allowance and the creation and redemption fees (the "ManJer Fee"). As a result, amounts in respect of the management fee and licence allowance fees are transferred directly to ManJer by the Commodity Contract Counterparties under the terms of the Commodity Contracts and ManJer receives creation and redemption fees directly from Authorised Participants. Accordingly there are no cash flows through the Company.

Review of Operations

The most recent prospectus was issued on 17 June 2016. As at 31 December 2016 the Company had the following number of classes, in aggregate, of Currency-Hedged Commodity Securities in issue and admitted to trading on the following exchanges:

	London Stock Exchange	Borsa Italiana	Deutsche Börse
Classic and Longer Dated GBP-Hedged Commodity Securities	14	-	-
Classic and Longer Dated EUR-Hedged Commodity Securities	-	18	11
Total Currency-Hedged Commodity Securities	14	18	11

As at 31 December 2016, the fair value of assets under management amounted to USD 262.1 million (2015: USD 162.5 million). The Company recognises its financial assets (Commodity Contracts) and financial liabilities (Currency-Hedged Commodity Securities) at fair value in the Statement of Financial Position.

During the year, the Company generated income from creation and redemption fees, management fees and licence allowance as follows:

	2016 USD	2015 USD
Creation and Redemption Fees	1,437	4,454
Management Fees and Licence Allowance	1,352,293	731,111
Total Fee Income	1,353,730	735,565

Under the terms of the service agreement with ManJer, the Company accrued expenses equal to the management fees, licence allowance and creation and redemptions fees, which, after taking into account other operating income and expenses, resulted in an operating result for the year of USD Nil (2015: USD Nil).

The gain or loss on Currency-Hedged Commodity Securities and Commodity Contracts is recognised in the Statement of Profit or Loss and Other Comprehensive Income in line with the Company's accounting policy.

Review of Operations (continued)

The Company has entered into contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. These prices are based on an agreed formula published in the prospectus, and are equal to the published NAVs of each class of Currency-Hedged Commodity Security.

IFRS 13 requires the Company to identify the principal market and to utilise the available market price within that principal market. The directors consider that the stock exchanges where the Currency-Hedged Commodity Securities are listed to be the principal markets and as a result the fair value of the Currency Securities is the on-exchange price as quoted on those stock exchanges demonstrating active trading. As a result of the difference in valuation methodology between Commodity Contracts and Currency-Hedged Commodity Securities there is a mis-match between accounting values, and the results of the Company reflect a gain or loss on the difference between the Contractual Value of the Commodity Contracts and the market price of Currency-Hedged Commodity Securities. This gain or loss would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts. This is presented in more detail in note 7 to these financial statements.

The Company's exposure to risk is discussed in note 11 to the financial statements.

Going Concern

The nature of the Company's business dictates that the outstanding Currency-Hedged Commodity Securities may be redeemed at any time by the holder and in certain circumstances may be compulsorily redeemed by the Company. As the redemption of Currency-Hedged Commodity Securities will always coincide with the cancellation of an equal amount of Commodity Contracts, no liquidity risk is considered to arise. All other expenses of the Company are met by ManJer; therefore the directors consider the Company to be a going concern.

Future Developments*Referendum of the United Kingdom's ("UK's") membership of the European Union (the "EU Referendum")*

The EU referendum took place on 23 June 2016 and resulted in an overall vote to leave the European Union ("EU"). The EU referendum is non-binding and therefore in order to start the process to leave the EU, the British government will have to invoke Article 50 of the Lisbon Treaty ("Article 50"). Invoking Article 50 starts a two-year period during which a leaving agreement is negotiated setting out the arrangements for the withdrawal and outlining the UK's future relationship with the EU. The exact process for the UK's withdrawal is uncertain, although it is generally expected to take longer than two years as this would require the renegotiation of treaties and agreements, together with legislation changes.

The Company is domiciled in Jersey, outside of the EU, and the Currency-Hedged Commodity Securities are distributed in the EU under the EU Prospectus Directive which requires their offering to the public to be approved by an EU Member State regulator. To date, the Company has chosen the UK Financial Conduct Authority ("FCA") as its member state regulator for these purposes. Request is then made to the FCA, as the chosen Member State regulator, for the passporting of the offering across the EU, once again, under the Prospectus Directive.

It is currently expected that the Company would select an alternate EU Member State regulator through which to seek approval and request passporting for its offering to maintain the Company's access to relevant markets. As the Currency-Hedged Commodity Securities already comply with the European wide requirements of the Prospectus Directive, this is not expected to cause any disruption or alteration to the terms or nature of the Currency-Hedged Commodity Securities.

The Currency-Hedged Commodity Securities continue to comply with all applicable laws and regulations. Continued assessment of the impact will be required throughout the withdrawal process should the United Kingdom leave the EU.

The board of directors (the "Board") are not aware of any other developments that might have a significant effect on the operations of the Company in subsequent financial periods not already disclosed in this report or the attached financial statements.

Risk Management

Each Currency-Hedged Commodity Security is a debt instrument whose redemption price is linked directly to the performance of the underlying hedged commodity index. The Currency-Hedged Commodity Securities are issued under limited recourse arrangements whereby the holders have recourse only to the value of the Commodity Contracts attributable to the class of security they hold and not to the Company. In addition, since any such price movements are wholly attributable to the Currency-Hedged Commodity Security holders, the Company has no residual exposure to price movements of the Commodity Contracts. From a commercial perspective the gains or losses on the liability represented by the Currency-Hedged Commodity Securities are matched economically by corresponding losses or gains attributable to the Commodity Contracts (see detail above regarding the accounting mis-match). The Company does not retain any net gains or losses or net risk exposures. Further details surrounding the value of Currency-Hedged Commodity Securities and the Commodity Contracts are disclosed in note 11.

Movements in the price of the underlying hedged commodity index, and thus the value of the Currency-Hedged Commodity Securities, may vary widely which could have an impact on the demand for the Currency-Hedged Commodity Securities issued by the Company. These movements are shown in notes 6 and 7.

The Company has exposure to country and currency risk as the Currency-Hedged Commodity Securities provide investors with exposure to exchange rate movements between the US Dollar, Australian Dollar, Euro and Pound Sterling. However, the directors do not consider the Company to have a significant net exposure to country and currency risk arising from the current economic uncertainties facing a number of countries around the world as the gains or losses on the liability represented by the Currency-Hedged Commodity Securities are matched economically by corresponding losses or gains attributable to the Commodity Contracts.

Dividends

There were no dividends declared or paid in the year (2015: USD Nil). It is the Company's policy that dividends will only be declared when the directors are of the opinion that there are sufficient distributable reserves.

Employees

The Company does not have any employees. It is the Company's policy to use the services of specialist subcontractors or consultants as far as possible.

Directors' Remuneration

No director has a service contract with the Company. The directors of the Company who are employees within the ETF Securities Group do not receive separate remuneration in their capacity as directors of the Company. R&H Fund Services (Jersey) Limited ("R&H" or the "Administrator") receives a fee in respect of the directors of the Company who are employees of R&H.

The directors' fees which have been paid by ManJer on behalf of the Company for the year:

	2016	2015
	GBP	GBP
Graham J Tuckwell	Nil	Nil
Christopher J M Foulds	Nil	Nil
Graeme D Ross	7,500	7,500
Steven G Ross	500	Nil
Joseph L Roxburgh	Nil	Nil

Directors' Report (Continued)**Auditor**

A resolution to reappoint KPMG Channel Islands Limited as the auditor of the Company will be proposed at the next meeting of the directors.

Internal Control

During the year the Company did not have any employees or subsidiaries, and there is no intention that this will change. The Company, being a special purpose company established for the purpose of issuing Currency-Hedged Commodity Securities, has not undertaken any business, save for issuing and redeeming Currency-Hedged Commodity Securities, entering into the required documents and performing the obligations and exercising its rights in relation thereto, since its incorporation. The Company does not intend to undertake any business other than issuing and redeeming Currency-Hedged Commodity Securities and performing the obligations and exercising its rights in relation thereto.

The Company is dependent upon ManJer to provide management and administration services to it. ManJer is licensed under the Financial Services (Jersey) Law 1998 to conduct classes U, V and Z of Fund Services Business. ManJer outsources the administration services in respect of the Company to R&H. Documented contractual arrangements are in place with the Administrator which define the areas where the authority is delegated to them. The performance of the Manager and Administrator are reviewed on an ongoing basis by the Board through their review of periodic reports.

ManJer provides management and other services to both the Company and other companies issuing commodity and index tracking securities.

The Board having reviewed the effectiveness of the internal control systems of the Manager and R&H, and having a regard to the role of its external auditor, does not consider that there is a need for the Company to establish its own internal audit function.

Corporate Governance

There is no standard code of corporate governance in Jersey. The operations, as previously described in the directors' report, are such that the directors do not consider the Company is required to voluntarily apply the UK Corporate Governance Code.

As the Board is small there is no nomination committee and appointments of new directors are considered by the Board as a whole. The Board does not consider it appropriate that directors should be appointed for a specific term. Furthermore the structure of the Board is such that it is considered unnecessary to identify a senior non-executive director.

The constitution of the Board is disclosed above and will continue to have such a composition of directors beyond the next meeting of the directors.

The Board meets regularly as required by the operations of the Company, but at least quarterly to review the overall business of the Company and to consider matters specifically reserved for its review.

Audit Committee

The Board has not established a separate audit committee; instead the Board has met to consider the financial reporting by the Company, the internal controls, and relations with the external auditor. In addition the Board reviews the independence and objectivity of the auditor.

Statement of Directors' Responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board ("IASB") and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Jersey governing the preparation and dissemination of the financial statements may differ from legislation in other jurisdictions.

With regard to Regulation 2004/109/EC of the European Union (the "EU Transparency Directive"), the directors confirm that to the best of their knowledge that:

- the financial statements for the year ended 31 December 2016 give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company as required by law and in accordance with International Financial Reporting Standards as issued by the IASB; and
- the Directors' Report gives a fair view of the development of the Company's business, financial position and the important events that have occurred during the year and their impact on these financial statements.

The principal risks and uncertainties faced by the Company are disclosed in note 11 of these financial statements.

By order of the Board

Joseph L Roxburgh
Director
13 March 2017

ETFS Hedged Commodity Securities Limited

Independent Auditor's Report

We have audited the financial statements of ETFS Hedged Commodity Securities Limited (the "Company") for the year ended 31 December 2016 which comprise the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Financial Position, the Statement of Cash Flows, the Statement of Changes in Equity and the related notes 1 to 13. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards as issued by the International Accounting Standards Board.

This report is made solely to the Company's members, as a body, in accordance with Article 113A of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Directors' Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2016 and of its result for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards; and
- have been prepared in accordance with the requirements of the Companies (Jersey) Law 1991.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies (Jersey) Law 1991 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the Company; or
- the financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

The notes on pages 13 to 24 form part of these financial statements

Notes to the Financial Statements

1. General Information

ETFS Hedged Commodity Securities Limited (the “Company”) is a company incorporated in Jersey. The address of the registered office is Ordnance House, 31 Pier Road, St. Helier, Jersey, JE4 8PW.

The ETF Securities Group specialises in the development and issuance of Exchange Traded Products (“ETPs”). ETPs include Exchange Traded Commodities (“ETCs”) and Exchange Traded Funds (“ETFs”). The ETCs issued by the Company are secured, undated, limited recourse securities designed to track the value (before fees and expenses) of an underlying commodity, index or currency while providing market liquidity for the investor.

The purpose of the Company is to provide a vehicle that permits trading of the Currency-Hedged Commodity Securities and the Company does not make gains from trading in the underlying Commodity Contracts themselves. The Currency-Hedged Commodity Securities are issued under limited recourse arrangements whereby the Company has no residual exposure to price movements of the underlying assets, therefore from a commercial perspective gains and losses in respect of Commodity Contracts will always be offset by a corresponding loss or gain on the Currency-Hedged Commodity Securities. Further details regarding the risks of the Company are disclosed in note 11.

ETPs are not typically actively managed, are significantly lower in cost when compared to actively managed mutual funds and are easily accessible to investors. No trading or management of futures contracts is required of the Company because the Company has entered into arrangements to acquire an equivalent asset exposure to the underlying assets from third parties which fully hedges the exposure of the Company.

The Company is entitled to:

- (1) a management fee and a licence allowance which are calculated by applying a fixed percentage to the contractual value of Currency-Hedged Commodity Securities in issue on a daily basis; and
- (2) creation and redemption fees on the issue and redemption of the Currency-Hedged Commodity Securities.

No creation or redemption fees are payable to the Company when investors trade in the Currency-Hedged Commodity Securities on a listed market such as the London Stock Exchange.

The Company has entered into a service agreement with ETFS Management Company (Jersey) Limited (“ManJer” or the “Manager”), whereby ManJer is responsible for supplying or procuring the supply of all management and administration services required by the Company, (including marketing), as well as the payment of costs relating to the listing and issuance of Currency-Hedged Commodity Securities. In return for these services, the Company pays ManJer an amount equal to the management fee, licence allowance and the creation and redemption fees earned (the “ManJer Fee”). As a result there are no operating profits or losses recognised through the Company.

2. Accounting Policies

The main accounting policies of the Company are described below.

Basis of Preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”), and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

2. Accounting Policies (continued)

Critical Accounting Estimates and Judgements

The presentation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The only key accounting judgement required to prepare these financial statements is in respect of the valuation of Commodity Contracts and Currency-Hedged Commodity Securities held at fair value through profit or loss as disclosed in notes 6 and 7. Actual results could vary from these estimates.

Going Concern

The nature of the Company's business dictates that the outstanding Currency-Hedged Commodity Securities may be redeemed at any time by the holder and in certain circumstances may be compulsorily redeemed by the Company. Generally only security holders who have entered into an authorised participant agreement with the Company ("Authorised Participant") can submit applications and redemptions directly with the Company. As the redemption of Currency-Hedged Commodity Securities will always coincide with the cancellation of an equal amount of Commodity Contracts, no net liquidity risk is considered to arise. All other expenses of the Company are met by ManJer; therefore the directors consider the Company to be a going concern for the foreseeable future and have prepared the financial statements on this basis.

Accounting Standards

(a) Standards, amendments and interpretations adopted in the year:

In preparing the financial statements the Company has adopted all new or revised Standards and Interpretations, including:

- IAS 1 Presentation of Financial Statements – Disclosure Initiative
- IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interest in Other Entities and IAS 28 Investments in Associates and Joint Ventures – Applying the Consolidation Exception
- IFRS 11 Joint Arrangements – Accounting for Acquisitions of Interests in Joint Operations
- IFRS 14 Regulatory Deferral Accounts
- IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets – Clarification of Acceptable Methods of Depreciation and Amortisation
- IAS 16 Property, Plant and Equipment and IAS 41 Agriculture – Agriculture: Bearer Plants
- IAS 27 Separate Financial Statements – Equity Method in Separate Financial Statements
- Annual Improvements to IFRS, including the following standards:
 - IFRS 5 Non-current Assets Held for Sale and Discontinued Operations
 - IFRS 7 Financial Instruments: Disclosures
 - IAS 19 Employee Benefits
 - IAS 34 Interim Financial Reporting

Of those Standards and Interpretations adopted in the current year, none have resulted in any significant effect on these financial statements.

2. Accounting Policies (continued)

Accounting Standards (continued)

(b) New and revised IFRSs in issue but not yet effective:

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective:

- IFRS 9 Financial Instruments (as amended in 2014) (effective for annual periods beginning on or after 1 January 2018)
- IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (no effective date set)
- IFRS 15 Revenue from Contracts with Customers (effective for annual periods beginning on or after 1 January 2018)
- IFRS 16 Leases (effective for annual periods beginning on or after 1 January 2019)
- IAS 12 Income Taxes (effective for annual periods beginning on or after 1 January 2017)
- IAS 7 Statement of Cash Flows – Disclosure Initiative (effective for annual periods beginning on or after 1 January 2017)
- IFRS 2 Share-based Payment (effective for annual periods beginning on or after 1 January 2018)
- IFRS 4 Insurance Contracts (overlay approach to be applied when IFRS 9 is first applied, deferral approach effective for annual periods beginning on or after 1 January 2018 and only available for three years after that date)
- Annual Improvements to IFRS

The directors intend to adopt IFRS 9 for the annual period beginning on 1 January 2018. The directors have undertaken a preliminary assessment of the impact of adopting IFRS 9 and have concluded that there would be no impact on the amounts reported in respect of the Company's financial instruments. Disclosures in the financial statements will be amended as necessary to meet the requirements of the standard.

The directors do not expect the adoption of the remaining standards, amendments and interpretations that are in issue but not yet effective will have a material impact on the financial statements of the Company in future periods.

The directors have considered other standards and interpretations in issue but not effective and concluded that they would not have a material impact on the future financial periods when they become available.

Currency-Hedged Commodity Securities and Commodity Contracts

i) Issue and Redemption

The Company has entered into Facility Agreements with UBS AG, London Branch ("UBS") and Merrill Lynch International ("Merrill Lynch") to permit the Company to create and cancel Commodity Contracts at prices equivalent to Currency-Hedged Commodity Securities issued or redeemed on the same day. Each time a Currency-Hedged Commodity Security is issued or redeemed by the Company a corresponding number and value of Commodity Contracts are created or cancelled with UBS or Merrill Lynch.

Financial assets and liabilities are recognised and de-recognised on the transaction date.

ii) Pricing

The Commodity Contracts are priced by reference to certain currency-hedged commodity indices calculated and published by Bloomberg L.P. and Bloomberg Finance L.P. (together "Bloomberg") and a multiplier calculated by the Company and agreed with UBS and Merrill Lynch. The multiplier takes into account the daily accrual of the management fee, licence allowance and swap spread as well as the incremental capital enhancement component of the Currency-Hedged Commodity Security, and is the same across all Currency-Hedged Commodity Securities of the same type (i.e. all Classic Currency-Hedged Commodity Securities use the same multiplier). This price is calculated based on the formula set out in the prospectus, and is referred to as the 'Contractual Value'.

2. Accounting Policies (continued)**Currency-Hedged Commodity Securities and Commodity Contracts (continued)**

ii) Pricing (continued)

IFRS 13 requires the Company to identify the principal market and to utilise the available market price within that principal market. The directors consider that the stock exchanges where the Currency-Hedged Commodity Securities are listed to be the principal markets and as a result the fair value of the Currency-Hedged Commodity Securities is the on-exchange price as quoted on those stock exchanges demonstrating active trading. The Currency-Hedged Commodity Securities are priced using the closing mid market price on the Statement of Financial Position date.

Consequently a difference arises between the value of Commodity Contracts (at Contractual Value) and Currency-Hedged Commodity Securities (at market value) presented in the Statement of Financial Position. This difference is reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts.

iii) Designation at fair value through Profit or Loss

Each Currency-Hedged Commodity Security and Commodity Contract comprises a financial instrument whose redemption or cancellation price is linked to the performance of the relevant commodity index adjusted by the applicable fees and expenses

These instruments are designated at fair value through the profit or loss upon initial recognition. This is in order to enable gains or losses on both the Currency-Hedged Commodity Securities and Commodity Contracts to be recorded in the Statement of Profit or Loss and Other Comprehensive Income.

Through the mis-matched accounting values, the results of the Company reflect a gain or loss which represents the movement in the cumulative difference between the Contractual Value (based on the formula set out in the prospectus) of the Commodity Contracts and the market price of Currency-Hedged Commodity Securities. This gain or loss is transferred to a Revaluation Reserve which is non-distributable. The results of the Company are adjusted through the presentation of a non-statutory movement entitled 'Adjustment from Market Value to Contractual Value (as set out in the prospectus) of Currency-Hedged Commodity Securities'.

Commodity Contracts and Securities Awaiting Settlement

The issue or redemption of Currency-Hedged Commodity Securities, and the creation or cancellation of Commodity Contracts, is accounted for on transaction date. Where settlement pricing is applied, the transaction will not settle until two days after the transaction date. Where transactions are awaiting settlement at the period end, the monetary value of the Commodity Contracts and Currency-Hedged Commodity Securities due to be settled is separately disclosed within the relevant assets and liabilities on the Statement of Financial Position.

Revenue Recognition

Revenue is recognised to the extent that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and other sales taxes or duty.

Fees received for the issue and redemption of Currency-Hedged Commodity Securities are recognised at the date on which the transaction becomes legally binding. All other income and expenses are recognised on an accruals basis.

2. Accounting Policies (continued)

Loans and Receivables

The loans and receivables are non-derivative financial assets with a fixed payment amount and are not quoted in an active market. After initial measurement the loans and receivables are carried at amortised cost using the effective interest method less any allowance for impairment. The effective interest method is a method of calculating the amortised cost of an instrument and of allocating interest over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash flows (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. Gains and losses on loans and receivables which are impaired are recognised immediately through profit or loss.

Foreign Currency Translation

The financial statements of the Company are presented in the currency of the primary economic environment in which it operates (its functional currency). For the purpose of the financial statements, the results and financial position of the Company are expressed in United States Dollar, which is the functional currency of the Company, and the presentational currency of the financial statements.

Monetary assets and liabilities denominated in foreign currencies at the period end date are translated at rates ruling at that date. Creation and redemption fees are translated at the average rate for the month in which they are incurred. The resulting differences are accounted for through profit or loss.

Segmental Reporting

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the Chief Operating Decision Maker (“CODM”) in order to allocate resources to the segments and to assess their performance. The CODM has been determined as the board of directors. A segment is a distinguishable component of the Company that is engaged either in providing products or services (business segment), or in providing products and services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

The Company has not provided segmental information as the Company has only one business or product group, classic and longer dated Currency-Hedged Commodity Securities, and one geographical segment which is Europe. In addition the Company has no single major customer from which greater than 10% of revenue is generated. All information relevant to the understanding of the Company’s activities is included in these financial statements.

3. Operating Result

Operating result for the year comprised:

	Year ended 31 December	
	2016 USD	2015 USD
Creation and Redemption Fees	1,437	4,454
Management Fees	1,227,080	663,416
Licence Allowance	125,213	67,695
Total Revenue	1,353,730	735,565
ManJer Fees	(1,353,730)	(735,565)
Total Operating Expenses	(1,353,730)	(735,565)
Operating Result	-	-

Audit Fees for the year of GBP 18,270 will be met by ManJer (2015: GBP 18,000).

4. Taxation

The Company is subject to Jersey Income Tax. The Jersey Income Tax rate applicable to the Company for the foreseeable future is zero percent.

5. Trade and Other Receivables

	As at 31 December	
	2016 USD	2015 USD
Management Fee and Licence Allowance	125,944	100,626
Creation and Redemption Fees	34,603	5,161
Stated Capital Receivable	3	3
	160,550	105,790

The fair value of these receivables is equal to the carrying value.

6. Commodity Contracts

	As at 31 December	
	2016 USD	2015 USD
Change in Fair Value for the Year	19,923,497	(64,874,401)
Commodity Contracts at Fair Value	262,137,698	162,549,855

As at 31 December 2016, there were certain amounts of Commodity Contracts awaiting settlement in respect of the creation or redemption of Currency-Hedged Commodity Securities with transaction dates before the year end and settlement dates in the following year:

- The amount receivable on Commodity Contracts as a result of unsettled redemptions of Commodity Contracts is USD 279,259 (2015: USD 250,393).
- The amount payable on Commodity Contracts as a result of unsettled creations of Commodity Securities is USD 595,867 (2015: USD 227,670).

7. Currency-Hedged Commodity Securities

Whilst the Currency-Hedged Commodity Securities are quoted on the open market, the Company's liability relates to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. These prices are based on an agreed formula, and are equal to the published NAVs of each class of Currency-Hedged Commodity Security. Therefore, the actual contractual issue and redemption of Currency-Hedged Commodity Securities occur at a price that corresponds to gains or losses on the Commodity Contracts. As a result the Company has no net exposure to gains or losses on the Currency-Hedged Commodity Securities and Commodity Contracts.

The Company measures the Currency-Hedged Commodity Securities at their market value in accordance with IFRS 13 rather than their Contractual Value (as described in the prospectus). The transferable value is deemed to be the prices quoted on stock exchanges or other markets where the Currency-Hedged Commodity Securities are listed or traded. However Commodity Contracts are valued based on the agreed formulae set out in the prospectus.

Notes to the Financial Statements (Continued)

7. Currency-Hedged Commodity Securities (continued)

The fair values and movements in unrealised gains/losses during the year based on prices available on the open market as recognised in the financial statements are:

	As at 31 December	
	2016 USD	2015 USD
Change in Fair Value for the Year	(21,989,740)	67,130,891
Currency-Hedged Commodity Securities at Fair Value	262,375,218	160,721,132

The contractual redemption values and movements in unrealised gains/losses during the year based on the contractual settlement values are:

	As at 31 December	
	2016 USD	2015 USD
Change in Contractual Redemption Value for the Year	(19,923,497)	64,874,401
Currency-Hedged Commodity Securities at Contractual Redemption Value	262,137,698	162,549,855

The gain or loss on the difference between the agreed Contractual Value of the Commodity Contracts and the market price of Currency-Hedged Commodity Securities would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts.

The mismatched accounting values are as shown below and represent the non-statutory adjustment presented in the Statement of Profit or Loss and Other Comprehensive Income:

	Year ended 31 December	
	2016 USD	2015 USD
Net Gain / (Loss) Arising on Contractual and Fair Value of Currency-Hedged Commodity Contracts	19,923,497	(64,874,401)
Net (Loss) / Gain Arising on Fair Value of Currency-Hedged Commodity Securities	(21,989,740)	67,130,891
	(2,066,243)	2,256,490

As at 31 December 2016, there were certain Currency-Hedged Commodity Securities awaiting settlement in respect of creations or redemptions with transaction dates before the year end and settlement dates in the following year:

- The amount receivable as a result of unsettled creations of Currency-Hedged Commodity Securities is USD 595,867 (2015: USD 227,670).
- The amount payable as a result of unsettled redemptions of Currency-Hedged Commodity Securities is USD 279,259 (2015: USD 250,393).

8. Trade and Other Payables

	As at 31 December	
	2016	2015
	USD	USD
ManJer Fees Payable	160,547	105,787

The fair value of these payables is equal to the carrying value.

9. Stated Capital

	As at 31 December	
	2016	2015
	USD	USD
2 Shares of Nil Par Value, Issued at GBP 1 Each	3	3

The Company can issue an unlimited capital of nil par value shares in accordance with its Memorandum of Association.

All shares issued by the Company carry one vote per share without restriction and carry the right to dividends. All shares are held by ETFS Holdings (Jersey) Limited (“HoldCo”). ETF Securities Limited (“ETFSL”) is the parent company of HoldCo.

10. Related Party Disclosures

Entities and individuals which have a significant influence over the Company, either through the ownership or by virtue of being a director of the Company are related parties.

Fees charged by ManJer during the year:

	Year ended 31 December	
	2016	2015
	USD	USD
ManJer Fees	1,353,730	735,565

The following balances were due to ManJer at year end:

	Year ended 31 December	
	2016	2015
	USD	USD
ManJer Fees Payable	160,547	105,787

As disclosed in the Directors’ Report, ManJer paid Directors’ Fees in respect of the Company of GBP 8,000 (2015: GBP 7,500).

Steven G Ross is a director of R&H Fund Services (Jersey) Limited (“R&H” or the “Administrator”). (Graeme D Ross was also a director of R&H until 31 December 2016). During the year, R&H charged ManJer administration fees in respect of the Company of GBP 15,750 (2015: GBP 20,500), of which GBP 3,938 (2015: GBP 5,125) was outstanding at the year end.

Graham J Tuckwell is a director of ETFSL, ManJer and HoldCo. Joseph L Roxburgh is a director of ManJer and HoldCo. Christopher JM Foulds is the Compliance Officer of ManJer.

11. Financial Risk Management

The Currency-Hedged Commodity Securities are subject to normal market fluctuations and other risks inherent in investing in securities and other financial instruments. There can be no assurance that any appreciation in the value of securities will occur, and the capital value of an investor's original investment is not guaranteed. The value of investments may go down as well as up, and an investor may not get back the original amount invested.

The Company is exposed to a number of risks arising from its activities. The information provided below is not intended to be a comprehensive summary of all the risks associated with the Currency-Hedged Commodity Securities and investors should refer to the most recent prospectus for a detailed summary of the risks inherent in investing in the Currency-Hedged Commodity Securities. Any data provided should not be used or interpreted as a basis for future forecast or investment performance.

The risk management policies employed by the Company to manage these are discussed below.

(a) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities as they fall due.

Generally, there is no liquidity risk to the Company because the maturity profile of the Currency-Hedged Commodity Securities and Commodity Contracts are matched, therefore the Company does not have to wait for a longer-term contract to mature in order to pay its debts to ex-security holders. Furthermore, while the agreements with the Commodity Contract Counterparties include limits (both daily and in the aggregate) on the issue and cancellation of Commodity Contracts, the Company is not obliged to issue and redeem Currency-Hedged Commodity Securities in excess of those limits under the terms of the security agreement.

(b) Credit Risk

Credit risk primarily refers to the risk that Authorised Participants or the Commodity Contract Counterparty will default on its contractual obligations resulting in financial loss.

The value of Currency-Hedged Commodity Securities and the ability of the Company to repay the redemption price is dependent on the receipt of such amount from UBS and Merrill Lynch and may be affected by the credit rating attached to UBS and Merrill Lynch.

To cover the credit risk under the Commodity Contracts, UBS and Merrill Lynch are obliged to place an equivalent amount of collateral into a pledge account with The Bank of New York Mellon based on the total outstanding value of the Commodity Contracts at the end of the previous trading day. In the event of default by UBS or Merrill Lynch, the Company has rights over the amounts placed in this pledge account.

(c) Settlement Risk

Settlement risk primarily refers to the risk that an Authorised Participant or the Commodity Contract Counterparty will default on its contractual obligations resulting in financial loss.

The directors believe that settlement risk would only be caused by the risk of the Company's trading counterparty not delivering cash or Currency-Hedged Commodity Securities on the settlement date. The directors feel that this risk is mitigated as a result of the cash or Currency-Hedged Commodity Securities settling through the CREST system. The system ensures that the transaction does not settle until both parties have fulfilled their contractual obligations.

Amounts outstanding in respect of positions yet to settle are disclosed in notes 6 and 7.

11. Financial Risk Management (continued)*(d) Sensitivity Analysis*

IFRS 7 requires disclosure of a sensitivity analysis for each type of market risk to which the Company is exposed to at the reporting date, showing how comprehensive income and equity would have been affected by a reasonably possible change to the relevant risk variable.

The Company's rights and liabilities in respect of Commodity Contracts and Currency-Hedged Commodity Securities, respectively, relates to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. As a result the Company's contractual and economic liability in connection with the issue and redemption of Currency-Hedged Commodity Securities is matched by movements in corresponding Commodity Contracts. Consequently, the Company does not have any net exposure to market price risk. Therefore, in the directors' opinion, no sensitivity analysis is required to be disclosed.

(e) Capital Management

The Company's principal activity is the listing and issue of Currency-Hedged Commodity Securities. These Currency-Hedged Commodity Securities are issued and redeemed as demand requires. The Company holds a corresponding amount of Commodity Contracts which matches the total liability of the Currency-Hedged Commodity Securities issued. ManJer supplies or arranges for the supply of all management and administration services to the Company and pays all management and administration costs of the Company. In return for these services the Company pays ManJer a fee, which under the terms of the service agreement is equal to the aggregate of the management fee, licence allowance and creation and redemption fees earned. The Company is not subject to any capital requirements imposed by a regulator and there were no changes in the Company approach to capital management during the year.

As all Currency-Hedged Commodity Securities in issue are supported by an equivalent amount of Commodity Contracts held with UBS and Merrill Lynch and the running costs of the Company are paid by ManJer, the directors of the Company consider the capital management and its current capital resources are adequate to maintain the on-going listing and issue of Currency-Hedged Commodity Securities.

(f) Market Risk

Market risk is the risk that changes in market prices (such as foreign exchange rates, interest rates and equity prices) will affect the Company's income or the value of its financial instruments held or issued.

i) Price Risk

The value of the Company's liability in respect of the Currency-Hedged Commodity Securities fluctuates according to the performance of the underlying commodity indices and the risk of such change in price is managed by the Company by entering into Commodity Contracts with UBS and Merrill Lynch which match the liability. The Company therefore bears no financial risk from a change in the price of a commodity, commodity index or currency by reference to the futures price. Refer to note 7 for the further details regarding fair values.

However there is an inherent risk from the point of view of investors as the price of commodities, and thus the value of the Currency-Hedged Commodity Securities, may vary widely due to, amongst other things, changing supply or demand, government and monetary policy or intervention and global or regional political, economic or financial events.

The market price of Currency-Hedged Commodity Securities is a function of supply and demand amongst investors wishing to buy and sell Currency-Hedged Commodity Securities and the bid-offer spread that the market makers are willing to quote. This is highlighted in note 7, and below under the Fair Value Hierarchy.

ii) Interest Rate Risk

The multiplier used in the pricing of the Currency-Hedged Commodity Contracts or the Currency-Hedged Commodity Securities takes into account the incremental capital enhancement component of the Currency-Hedged Commodity Security, which includes the impact of interest rates. As a result the Company does not have significant exposure to interest rate risk.

Notes to the Financial Statements (Continued)

11. Financial Risk Management (continued)

(f) Market Risk (continued)

iii) Currency Risk

The Company has exposure to currency risk as the Currency-Hedged Commodity Securities are priced in US Dollars and hedged against exchange rate movements between the US Dollar, Australian Dollar, Euro and Pound Sterling. However, the directors do not consider the Company to have a significant exposure to currency risk arising from the current economic uncertainties facing a number of countries around the world as the gains or losses on the liability represented by the Currency-Hedged Commodity Securities are matched economically by corresponding losses or gains attributable to the Commodity Contracts.

(g) Fair Value Hierarchy

The levels in the hierarchy are defined as follows:

- Level 1 fair value based on quoted prices in active markets for identical assets.
- Level 2 fair values based on valuation techniques using observable inputs other than quoted prices within level 1.
- Level 3 fair values based on valuation techniques using inputs that are not based on observable market data.

Categorisation within the hierarchy is determined on the basis of the lowest level input that is significant to the fair value measurement of each relevant asset/liability.

The Company is required to utilise the available market price as the Currency-Hedged Commodity Securities are quoted and actively traded on the open market. Therefore Currency-Hedged Commodity Securities are classified as level 1 financial liabilities.

The Company's rights in respect of Commodity Contracts relate to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. These prices are based on an agreed formula (set out in the prospectus), and are equal to the published NAVs of each class of Currency-Hedged Commodity Security. Therefore, Commodity Contracts are classified as level 2 financial assets, as the value is calculated using third party pricing sources supported by observable, verifiable inputs.

The categorisation of the Company's assets and (liabilities) are as shown below:

	Fair Value as at 31 December	
	2016 USD	2015 USD
Level 1		
Currency-Hedged Commodity Securities	<u>(262,375,218)</u>	<u>(160,721,132)</u>
Level 2		
Commodity Contracts	<u>262,137,698</u>	<u>162,549,855</u>

The Currency-Hedged Commodity Securities and the Currency-Hedged Commodity Contracts are recognised at fair value through profit or loss upon initial recognition in line with the Company's accounting policy. There are no assets or liabilities classified in level 3. There were no reclassifications during the year.

12. Ultimate Controlling Party

Graham J Tuckwell through his majority shareholding in ETFSL. ETFSL is the parent company of HoldCo.

The value of the Currency-Hedged Commodity Contracts backing the Currency-Hedged Commodity Securities is wholly attributable to the holders of the Currency-Hedged Commodity Securities.

13. Events Occurring After the Reporting Period

No significant events have occurred since the end of the reporting period up to the date of signing the Financial Statements which would impact on the financial position of the Company disclosed in the Statement of Financial Position as at 31 December 2016 or on the results and cash flows of the Company for the year ended on that date.

The intelligent
alternative.
