DIRECTORS' REPORT

The directors of ETFS Hedged Commodity Securities Limited ("HCSL" or the "Company") submit herewith the unaudited interim financial report and interim financial statements of the Company for the period ended 30 June 2014.

Directors

The names and particulars of the directors of the Company during or since the end of the financial period are:

Mr Graham J Tuckwell - Chairman

Mr Graeme D Ross

Mr Joseph L Roxburgh

Mr Craig A Stewart (resigned 21 June 2013)

Mr Mark K Weeks (appointed 21 June 2013)

Directors' Interests

The following table sets out the only director's interest in Ordinary Shares as at the date of this report:

<i>Director</i>	<u><i>Ordinary Shares of Nil Par Value</i></u>
Graham J Tuckwell (as controlling party of ETF Securities Limited ("ETFSL"))	2

Principal Activities

During the period there were no significant changes in the nature of the Company's activities.

Review of Operations

During the period, the Company had the following number of classes, in aggregate, of Currency-Hedged Commodity Securities in issue and admitted to trading on the following exchanges:

Security	London Stock Exchange	Borsa Italia	Deutsche Börse
Classic Hedged Commodity Securities	11	16	10
Forward Hedged Commodity Securities	3	2	-
Total Currency-Hedged Commodity Securities	14	18	10

As at 30 June 2014, assets under management amounted to USD 31.2 million (31 December 2013: USD 25.4 million). The Company recognises its financial assets (Commodity Contracts) and financial liabilities (Currency-Hedged Commodity Securities) at fair value in the Statement of Financial Position.

ETFS HEDGED COMMODITY SECURITIES LIMITED

DIRECTORS' REPORT (CONTINUED)

Review of Operations (continued)

During the period, the Company generated income from creation and redemption fees, management fees and licence allowance as follows:

	30 June 2014	30 June 2013
	USD	USD
Creation and Redemption Fees	-	1,536
Management Fees and Licence Allowance	66,084	91,314
Total Fee Income	66,084	36,299

Under the terms of the service agreement with ETFS Management Company (Jersey) Limited ("ManJer"), the Company accrued expenses equal to the management fees and licence allowance and creation and redemption fees, which, after taking into account other operating income and expenses, resulted in an operating result for the period of USD Nil (30 June 2013: USD Nil).

The gain or loss on Currency-Hedged Commodity Securities and Commodity Contracts is recognised in the Statement of Profit or Loss and Other Comprehensive Income in line with the Company's accounting policy. IFRS 13 requires the Company to utilise the available market price for the Currency-Hedged Commodity Securities as quoted on the open market. The Company's rights in respect of Commodity Contracts relates to its contractual obligations to trade with certain counterparties at set prices on each trading day. These prices are based on an agreed formula published in the prospectus, and are equal to the published NAVs of each class of Currency-Hedged Commodity Security.

As a result of the difference in valuation methodology between Commodity Contracts and Currency-Hedged Commodity Securities there is a mis-match between accounting values, and the results of the Company reflect a gain or loss on the difference between the agreed formula price of the Commodity Contracts and the market price of Currency-Hedged Commodity Securities. This gain or loss would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the equivalent Commodity Contracts.

Future Developments

The directors are not aware of any developments that might have a significant effect on the operations of the Company in subsequent financial periods not already disclosed in this report or the attached interim financial statements.

Dividends

There were no dividends declared or paid in the current or previous period. It is the Company's policy that dividends will only be declared when the directors are of the opinion that there are sufficient distributable reserves.

Employees

The Company does not have any employees. It is the Company's policy to use the services of specialist subcontractors or consultants as far as possible.

ETFS HEDGED COMMODITY SECURITIES LIMITED

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the interim financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare interim financial statements for each financial period. Under that law the directors have elected to prepare the interim financial statements in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board. The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

International Accounting Standard 1 requires that financial statements present fairly for each financial period the Company's financial position, financial performance and cash flows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's 'Framework for the preparation and presentation of financial statements'. In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. However, the directors are also required to:

- Properly select and apply accounting policies;
- Present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- Make an assessment of the Company's ability to continue as a going concern.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

By order of the Board

Director

1. Accounting Policies

The main accounting policies of the Company are described below.

Basis of Preparation

The interim financial statements for the six months ended 30 June 2014 have been prepared in accordance with IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB. The interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss and should be read in conjunction with the annual financial statements for the year ended 31 December 2013.

The accounting policies adopted are consistent with those of the annual financial statements for the year ended 31 December 2013. The interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as at 31 December 2013.

The presentation of interim financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The only key accounting judgement required to prepare these financial statements is in respect of the valuation of Commodity Contracts and Currency-Hedged Commodity Securities held at fair value through the profit or loss as disclosed in notes 5 and 6. Actual results could vary from these estimates.

This half yearly report has not been audited or reviewed by the Company's auditors.

Accounting Standards

(a) *Standards, amendments and interpretations effective on 1 January 2014 but not relevant to the Company:*

- Amendments to IFRS 10 Consolidated Financial Statements - Investment Entities
- Amendments to IFRS 12 Disclosure of Interests in Other Entities - Investment Entities
- Amendments to IAS 27 Separate Financial Statements - Investment Entities
- Amendments to IAS 36 Impairment of Assets - Recoverable Amount Disclosures for Non-Financial Assets
- Amendments to IAS 32 Financial Instruments: Presentation
- IAS 39 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting
- IFRIC 21 Levies

(b) *Standards, amendments and interpretations that are in issue but not yet effective:*

- IFRS 9 Financial Instruments (as amended in 2009)
- IFRS 9 Financial Instruments (as amended in 2010)
- IFRS 9 Financial Instruments (as amended in 2013) (hedge accounting and amendments to IFRS 9, IFRS 7 and IAS 39)
- Amendments to IFRS 11 Joint Arrangements - accounting for acquisitions of an interest in a joint operation (effective for annual periods beginning on or after 1 January 2016)
- IFRS 14 Regulatory Deferral Accounts (effective for annual periods beginning on or after 1 January 2016)
- IFRS 15 Revenue from Contracts with Customers (effective for annual periods beginning on or after 1 January 2017)

1. Accounting Policies (continued)

Accounting Standards (continued)

(b) *Standards, amendments and interpretations that are in issue but not yet effective (continued):*

- Amendments to IAS 16 Property, Plant and Equipment - clarification of acceptable methods of depreciation and amortisation and bringing bearer plants within scope (effective for annual periods beginning on or after 1 January 2016)
- IAS 19 Employee Benefits - Defined Benefit Plans: Employee Contributions (effective for annual periods beginning on or after 1 July 2014)
- Amendments to IAS 38 Intangible Assets - clarification of acceptable methods of depreciation and amortisation (effective for annual periods beginning on or after 1 January 2016)
- Amendments to IAS 41 Agriculture - bringing bearer plants into the scope of IAS 16 (effective for annual periods beginning on or after 1 January 2016)
- Annual Improvements to IFRS (effective for annual periods beginning on or after 1 July 2014)

The directors anticipate that the adoption of these standards in future periods will have no material financial impact; however the amendments may change the presentation of the financial statements. The directors have considered other new and revised standards and concluded that they would not have a material impact on the future financial periods when they become available.

Currency-Hedged Commodity Securities and Commodity Contracts

i) Issuance and Redemption

The Company has entered into a Facility Agreement with UBS and Merrill Lynch to permit the Company to purchase and redeem Commodity Contracts at prices equivalent to Currency-Hedged Commodity Securities issued or redeemed on the same day. Each time a Currency-Hedged Commodity Security is issued or redeemed by the Company a matching number and value of Commodity Contracts are purchased or redeemed from UBS or Merrill Lynch. The Commodity Contracts represent financial assets of the Company and the Currency-Hedged Commodity Securities give rise to financial liabilities.

Financial assets and liabilities are recognised and de-recognised on the trade date.

When Commodity Contracts are redeemed from UBS and Merrill Lynch they are redeemed from the earliest Commodity Contract issued and then the next earliest contract until the redemption has been satisfied. This method is known as first in first out ("FIFO").

ii) Pricing

The Commodity Contracts are priced using the product of commodity indices published by Dow Jones & Company and a multiplier calculated by the Company and agreed with UBS and Merrill Lynch. The multiplier takes into account the daily accrual of the Management Fee and Licence Allowance as well as the incremental capital enhancement component of the equivalent Currency-Hedged Commodity Security, and is the same across all securities within the same class (i.e. all Classic Commodity Securities use the same multiplier).

The Currency-Hedged Commodity Securities are priced using the mid-market price on the statement of financial position date taken just before the final close of the market.

The Currency-Hedged Commodity Securities have been valued using the market price under IFRS 13 which requires the Company to utilise the available market price as the Currency-Hedged Commodity Securities are quoted on the open market. Consequently differences arising in the pricing of Currency-Hedged Commodity Securities are included in the statement of financial position and the statement of profit or loss and total comprehensive income in order to fair value the liability. The cumulative differences between the actual settlement value of the Currency-Hedged Commodity Securities and the fair value are presented as a non-statutory movement entitled 'Adjustment from Market Value to Contractual Formula Price (as set out in the prospectus) of Currency-Hedged Commodity Securities'.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

1. Accounting Policies (continued)

Currency-Hedged Commodity Securities and Commodity Contracts (continued)

iii) Designation at fair value through Profit or Loss

Each Currency-Hedged Commodity Security and Commodity Contract comprises a financial instrument whose redemption price is linked directly to the price of the underlying Commodity on a one-to-one basis.

Going Concern

The nature of the Company's business dictates that the outstanding Currency-Hedged Commodity Securities may be redeemed at any time by the holder and in certain circumstances may be redeemed by the Company. As the redemption of Currency-Hedged Commodity Securities will coincide with the redemption of an equal amount of Commodity Contracts, no liquidity risk is considered to arise. All other liabilities of the Company are met by ManJer; therefore the directors consider the Company to be a going concern for the foreseeable future and have prepared the financial statements on this basis.

Segmental Reporting

A segment is a distinguishable component of the Company that is engaged either in providing products or services (business segment), or in providing products and services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company has not provided segmental information as the Company has only one business or product group, classic and longer dated securities, and one geographical segment which is UK and Europe. All information relevant to the understanding of the Company's activities is included in these financial statements.

Forward Commodity Contracts	310,596	3,861,085
Total Commodity Contracts	1,649,209	31,237,604

As at 30 June 2014, there were certain Commodity Contracts awaiting the creation or (redemption) of Currency-Hedged Commodity Securities with trade dates before the period end and settlement dates in the following period. The amount receivable as a result of unsettled creations at the period end was USD 1,919,655 (31 December 2013: USD 62,636), and the amount (payable) as a result of unsettled redemptions at the period end was (USD 1,209,266) (31 December 2013: (USD Nil)).

6. Currency-Hedged Commodity Securities

Whilst the Currency-Hedged Commodity Securities are quoted on the open market, the Company's liability relates to its contractual obligations to trade with certain counterparties at set prices on each trading day. These prices are based on an agreed formula, and are equal to the published NAVs of each class of Currency-Hedged Commodity Security. Therefore, the actual contractual issue and redemption of Currency-Hedged Commodity Securities occur at a price that fully match gains or losses on the Commodity Contracts. As a result the Company has no net exposure to gains or losses on the Currency-Hedged Commodity Securities and Commodity Contracts.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

6. Currency-Hedged Commodity Securities (continued)

Through the adoption of IFRS 13 the Company now needs to measure the Currency-Hedged Commodity Securities at their transferable value rather than their settlement value. The transferable value is deemed to be the prices quoted on stock exchanges or other markets where the Currency-Hedged Commodity Securities are listed or traded. However Commodity Contracts continue to be valued based on the agreed formula (which is equal to the published NAVs of each class of Currency-Hedged Commodity Security). The market price of Currency-Hedged Commodity Securities is a function of supply and demand amongst investors wishing to buy and sell Currency-Hedged Commodity Securities and the bid-offer spread that the market makers are willing to quote.

The fair values and movements in unrealised gains/losses during the period/year based on prices available on the open market as recognised in the financial statements are:

	Change in Fair Value at 31 December 2013 Audited USD	Market Fair Value at 31 December 2013 Audited USD
Classic Currency-Hedged Commodity Securities	(5,036,812)	21,032,504
Forward Currency-Hedged Commodity Securities	(260,179)	4,657,122
Total Currency-Hedged Commodity Securities	(5,296,991)	25,689,626

The contractual redemption values and movements in unrealised gains/losses during the period/year based on the contractual settlement values are:

	Change in Contractual Redemption Value at 31 December 2013 Audited USD	Contractual Redemption Value at 31 December 2013 Audited USD
Classic Currency-Hedged Commodity Securities	(5,309,673)	20,759,642
Forward Currency-Hedged Commodity Securities	(293,892)	4,623,410
Total Currency-Hedged Commodity Securities	(5,603,565)	25,383,052

The gain or loss on the difference between the agreed formula price of the Commodity Contracts and the market price of Currency-Hedged Commodity Securities would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the equivalent Commodity Contracts. This gain or loss has been transferred to a Revaluation Reserve which is non-distributable.

The overall impact is that through the mis-matched accounting values, the results of the Company reflect a gain or loss on the movement in the difference between the agreed formula price of the Commodity Contracts and the market price of Currency-Hedged Commodity Securities. The mismatched accounting values are as shown below and represent the non-statutory adjustment presented on the statement of profit or loss and other comprehensive income:

	Change in Fair Value at 30 June 2014 Unaudited USD	Market Fair Value at 30 June 2014 Unaudited USD
